Resistance to Water Vapour	Appearance	Rating (min.) Gloss finish Other finishes	3 4	4
Resistance to Cigarette Burns	Appearance	Rating (min.)	3	3
Resistance to Cracking Under Stress	Appearance	Rating (min.)	4	4
Density	Density	kg/m³ (min.)	1350	1350

- a) L = in the longitudinal (or machine) direction of the fibrous sheet material (normally the direction of the longest dimension of the laminate).
- b) T = in the cross-longitudinal (cross-machine) direction of the fibrous sheet material (at right angles to direction L).
- c) The above is a general Product Specification. Please contact our Sales Specialists for specific Product Specification.

Maintenance & Cleaning Instructions

General Cleaning Instructions:

1. Use a clean, damp, non-abrasive cloth and mild soap, non-bleach or household cleaner.
2. Rinse with clear water, using a clean, non-abrasive cotton cloth.
3. Avoid flooding laminate particularly areas near to seams to prevent water from seeping in and consequently causing substrate to swell.
4. Dry laminate surface with a soft, clean, non-abrasive cotton cloth.

For Stubborn Stains:

1. Food stains: Use a mild cleaner, detergent or general purpose cleaner, and a short, soft nylon-bristled brush to gently clean stains.
2. Ink stains: Remove stains immediately, using detergent or glass spray cleaner. Allow cleaner to remain on the stain for several minutes and then blot with a damp cloth before rinse.
3. Solvents such as denatured alcohol, nail polish remover or paint thinner can be used sparingly for very stubborn stains.

Caution: Excessive use of solvents will damage the laminate finish and cause it more susceptible to stains. Do not use cleaning agents containing acid, alkaline or sodium hypochlorite on laminate surface to avoid corrosion or permanent discolouration.

To prolong the lifespan of Maica's laminate surface:

- Do not use laminate surface as a cutting or chopping surface.
- Always remove stains or marks immediately before they set. Once set, they require more aggressive cleaning procedures that may damage laminate surface.
- Place a trivet, insulated hot pad or other protective padding beneath all hot cookware, heat generating appliances or other heated objects instead of putting it directly on laminate surface.
- Do not use steel wool or abrasive pads on laminate surface, and do not place steel wools on it to avoid metal rust stains.
- Do not slide ceramics and abrasive objects across laminate surface as they may cause scratch and premature wear.
- Do not use acidic or abrasive cleaning agents on laminate surface as it may damage surface.
- Do not allow contact between any materials or items contaminated with acidic or abrasive cleaning agents and laminate surface.

Disclaimer

- The samples and products of Maica are manufactured with certain tolerances. They may not originate from the same batch of production. Pigment variation and angle of observation may influence the colour of products. For accurate representation, customers are advised to request samples from our Sales Specialists.
- Sample chips in this catalogue are intended for viewing purpose only. For product tests, please request for actual product samples.
- Maica will not be responsible for any claim arising from any errors in pasting sample chips in the catalogue. Therefore, customers are expected to inspect the products they receive before fabrication or installation.
- Maica disclaims its responsibility for any surface defects that are potentially caused by general wear and tear, or placement of any items with base that is prone to cause scratches, discolouration or any impact that alters the nature and the appearance of the surface of the product, due to the materials they are made of.
- All information in this catalogue is correct at the time of printing. However, Maica reserves the rights to make changes to the information in this catalogue without prior notice.
- The liability of Maica for any potential manufacturing faults is limited to the cost of the products only.
- The investigation of Maica for any product claim is deemed final and conclusive.
